

Sharing Your PC using Join Me

To share your screen:

- 1) Type **join.me** in the address line of your browser and press the Enter key to display the “join me” web page as shown below.

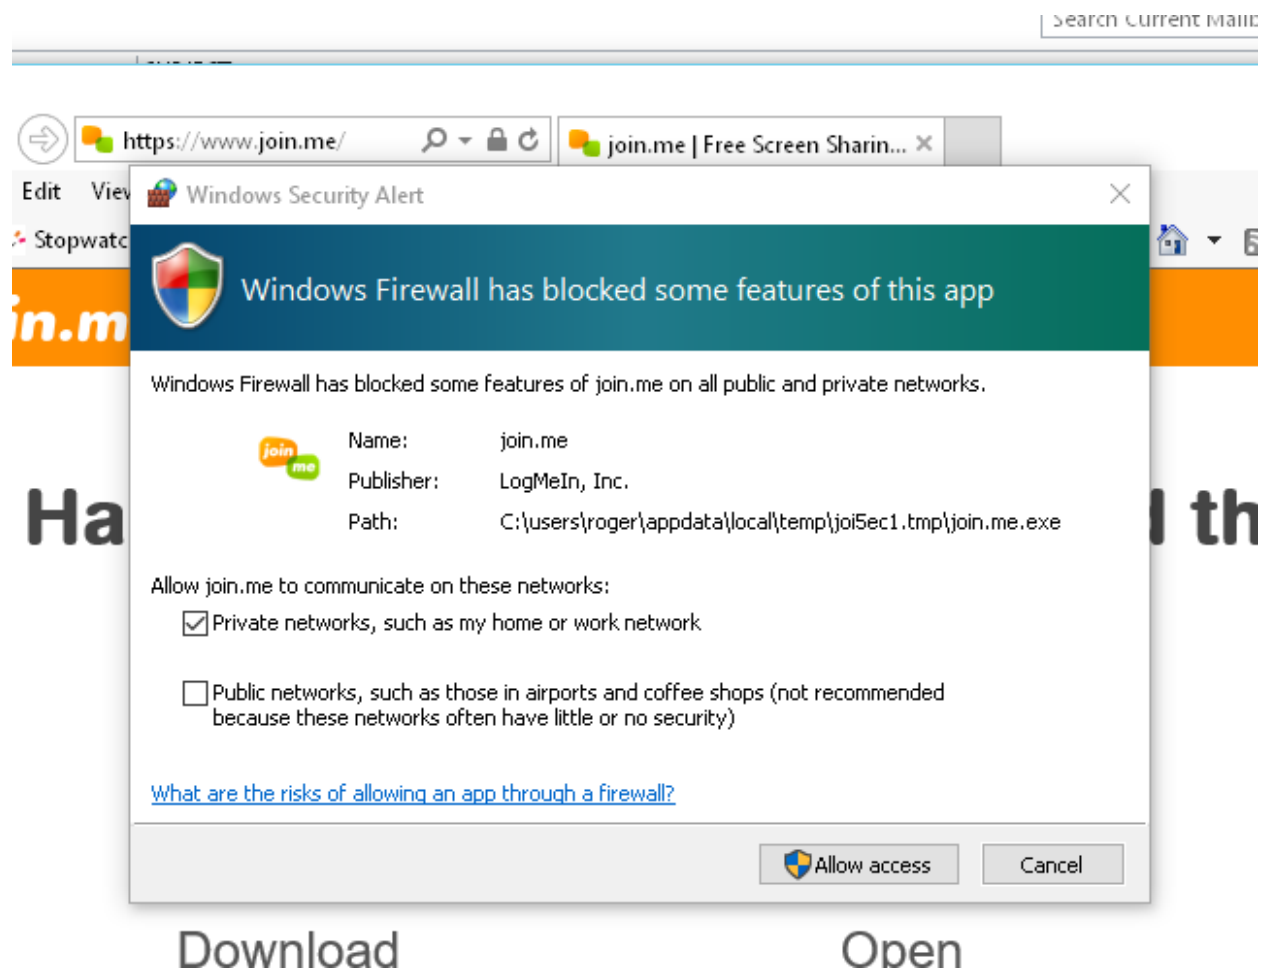

- 2) Click **start meeting** and you will then see the “Hang tight ...” screen as shown below.

- 3) Click the **Run** button to run **join.me.exe**

4) Click the “**Allow access**” button, as shown below.

This will appear at the top of your screen, give me the 9 digit number, as illustrated below, so I can see your screen.
