

## Window 7 install Telnet Client

1. Click the Start button , click Control Panel, "Programs", "Programs and Features", "Turn Windows features on or off."  
 If you are prompted for an administrator password or confirmation, type the password or provide confirmation.
2. In the "Windows Features" dialog box, shown below, select the "Telnet Client" check box.
3. Click OK. The installation might take several minutes.
