

HD0023 The process cannot access the file -----

If it shows the reason, as shown below, “**is being used by another process..**”, this could be caused by another user running the download.

Action:

- 1) Check that no other person is running the download communications session.
- 2) Reboot the PC and try again

```
C:\Windows\system32\cmd.exe
Queue Power Broker IDF files as e-mail in the \SMTPIN directory. <QPwrIDF.exe>
-- There was no Power Broker IDF files in \EMAIL to process.
-- 0 messages were queued.
There were no AL3 Menos to queue in the \TROUT directory.
<Server timeout set to 60 seconds.>
<SignIn ID is <CS10netID>bh2366a@broker.edi.csio.com</CS10netID>>
<SignIn was successful>
<There were no files in the \TROUT directory to upload>
Please wait while CS10net is getting the list of messages in your mailbox
<- Retrieving 500 messages from the mailbox >
```
